

OHV Grant Selection Sub-Committee
Colorado State Parks OHV Program
13787 South Highway 85
Littleton, CO 80125

Dear OHV Sub-Committee Members,

I am writing this letter in support of Clear Creek County Ranger District's grant request to hire a two person crew that will aid in the maintenance and signage of the roads and trails within the Clear Creek District as well as assist in educating users of all things OHV related. With the state and federal budgets always being tight to support or public lands, the funds the OHV users provide to the State Parks OHV program would be well spent in areas like Clear Creek Ranger District that promotes the responsible use of the roads and trails in their district. These additional personnel would allow the district to provide much needed maintenance on their roads and trails and allow other personnel to also reach more users and educate them about the importance of responsible use.

I have worked with Clear Creek Ranger District on a few of the roads and trails within their district, and they are always good about making sure their district is open to the public for use. Grant funds in this district would be well spent and provide much needed assistance to Clear Creek Ranger District.

Sincerely,

Jeffrey A. Miller
